

1. Register for an account by visiting www.hoopladigital.com or using the hoopla app on your iOS or Android mobile device and click on **Sign Up**. You will need to provide an email address, create a password, and have your library card information. Our free mobile app can be found in the Apple App Store or the Google Play Store.
2. Easily browse titles on your computer or mobile device by clicking **Browse** and choosing the **Music**, **Movies**, **Audiobooks**, or **Television** tab. You can also search for a specific title by clicking on the **Search** box and typing in your title/keyword.
3. To borrow a title click on the titles icon and then click the **Borrow** button. The borrowed titles can be found under the **My Titles** tab for viewing/listening. Enjoy your selected titles!
4. Borrowed titles will be automatically returned when your lending period is over.
5. If you need additional help visit www.hoopladigital.com and click the **Need Help?** link at the bottom of the page.

Supported Devices

hoopla digital supports a wide array of devices and browsers on your computer. Included are the following:

Android:

Google Nexus 4
Google Nexus 7
HTC Droid DNA
HTC Evo 4G LTE
HTC One
Motorola Droid Razr M
Samsung Galaxy S3
Samsung Galaxy S4
Samsung Galaxy Note 2
ASUS Transformer TF300T 10"
Barnes & Noble Nook HD+ 9"
Samsung Galaxy Tab 2 7"
Samsung Galaxy Tab 2 10"

iOS:

iPad 2 and newer
iPad Mini
iPad Air
iPhone 4 and newer
iPod Touch 5th Gen and newer

To find the app, please head to the app store on your device and search for "hoopla digital." Download the app, and you will be up and running in no time at all. Please note that a network connection is required to download and use the mobile app. Data and messaging rates may apply.

Plug-In

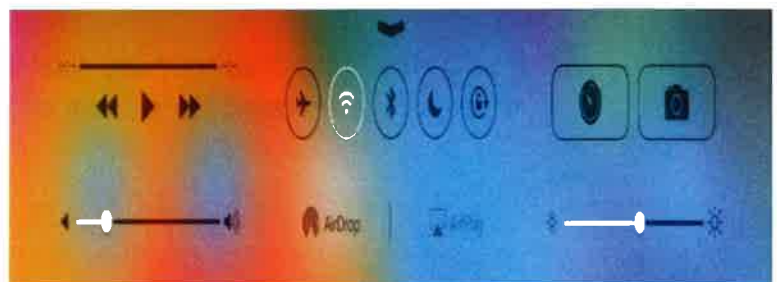

After you have borrowed content, simply head to the **My Titles** section and click on the title you wish to play. You will be prompted to complete a one-time download of a media plug-in called "**Widevine.**" This software is a Google product, and presents no security issue to your computer. If you are not prompted to download this plug-in, please head to www.widevine.com/download/videooptimizer/index to download the plug-in.

Setting up Apple TV:

The Apple TV and the iOS device need to be on the same WiFi network. Then swipe from the bottom up on either the iPhone or iPad and you will see the "Airplay" button. Click that and it will then play on the TV.
